 <h2>TOUCHSCREEN</h2> <p>TLP-1526BDC Touch</p>	15W x 26H x 8D in	✓	✓	✓	*	*	2
<p>The LaundryPass TOUCHSCREEN Kiosk model, is our ultimate payment center with the addition of a large information-center touchscreen, providing consumers with important information and video walk-throughs. This fully automated kiosk can take the place of an employee, by allowing contactless cards to be purchased from the machine directly, through a card dispenser.</p>							

The LaundryPass system is designed to serve your business' high-volume traffic with ease, through our unique contactless card system. Card value is added at the payment kiosk, via the credit card inserter, or bill validator – configurable to accept \$1 to \$20 bills, and upgradeable to accept up to \$100 bills. The kiosk can also be managed locally with the included keyboard and optional display. The rear access option provides access to the other side of a wall for an adjacent office. Our card readers are plug-and-play, and don't require network connectivity. Cards not included.

The LaundryPass payment kiosk is securely constructed out of high-gauge steel, featuring T-handle tubular locks with proprietary anti-vandal measures, including resistance against forced-entry attacks through uniquely designed doors with concealed hinges.

*NOTE: LaundryPass systems with credit card inserters do NOT include credit card processing, cloud gateway or cloud monitoring. Credit card services requires a broadband internet connection. Not provided by LaundryPass.
