# 2431 PAX

The 2431 PAX Touch units are constructed with heavy-duty solid steel, featuring dual T-handle tubular locks with proprietary anti-vandal measures, including resistance against forced-entry attacks with specially designed access doors and concealed hinges. The Laundry Pass add-value stations are designed to service high-volume traffic with ease through the use of a unique contactless card reader, that enables fast turnaround through RFID.

Value can be added either through a credit card swiper, or a bill acceptor, configurable to accept \$1, \$5, \$10 and \$20 bills, and upgradeable to accept \$50 bills. The bill acceptor is capable of storing up to 500 bills, and can be upgraded with a high-capacity 1000 bill stacker. Each station comes outfitted with a 12-inch touchscreen, showing the current status, facility information, time and other relevant data, and will display the card balance and amount paid, upon sensing a contactless card.

Card dispensers come with a capacity of 200 cards and are built to last with a ribbon-free mechanism. The system also offers an additional option for managers to effortlessly adjust settings directly from the terminals intuitive touchscreen interface, further streamlining operations, and can be configured with a rear access panel to provide access on the other side of a wall for an office.

A. 12 - inch Touchscreen  
B. Credit Card Machine  
C. Bill Validator

D. Card Dispenser  
E. Contactless Card Sensor  
F. Credit Card Swiper

G. Dual T-handle Tubular Locks
