

# CONTACTLESS CARD READER

## TLP305<sub>MP</sub>

The LaundryPass Contactless Card Reader is a built-in tap card reader available in white, gray, and black. It features a bright two-line display that clearly shows the current status, card balance, and amount paid when a contactless card is detected.

Designed for seamless installation, it has concealed mounting screws and multiple mounting options. It is compatible with Pulse, Emulator, and major protocols, making it suitable for both old and new brands (consult your distributor for details).

Effortless to use, this card reader requires just a simple tap— no complicated steps. It's the perfect solution for elderly and anyone seeking a hassle-free experience. Fast, secure, and incredibly user-friendly.

Available in  
Black, Grey  
& White
